ChartMaker® Practice Manager Release Notes

ChartMaker® 2018.2 (fv6.5.2)

Important Notifications

- **Upgrade from Microsoft Server 2008 and Windows 7 –** Since January 2020, your Windows 7 workstations and Microsoft 2008 Servers are no longer supported. Even with security patches, **problems may still arise** if you choose not to upgrade. In addition, your workstations are not HIPAA compliant. To avoid these issues, contact our **Technical Services Department** today.

- **SQL Server 2016 & the ChartMaker 2018.2 (File Version 6.3.3) Upgrade –** Beginning with ChartMaker 2018.2 (File Version 6.3.3) Upgrade, a warning message will appear upon the completion of the upgrade regarding the transition of the ChartMaker Medical Suite to using SQL Server 2016, for those offices where an automated upgrade to SQL Server 2016 was not possible. See the figure below. If you are receiving this message, to avoid potential issues and to ensure your system remains HIPPA compliant, it is important to contact either STI Hardware Helpdesk, or your software vendor, to review your options.

ChartMaker Medical Suite SQL Server 2016 Warning

Add-Ins

- **External Applications – PCImprt*** – In previous versions, when importing patients via the Practice Manager Data Import, if the social security number was blank for the patient being imported, a duplicate patient may have been created for an existing patient. This issue has been corrected.

  * This was released in the CMMS 6.5.2.454 hot fix release.

Charge

- **Charge – Pending Charges** – The **Insurance** column drop-down list has been updated with a **<Blank>** option, that allows you to filter pending charges that do not have an insurance attached to them. See Figure 1.

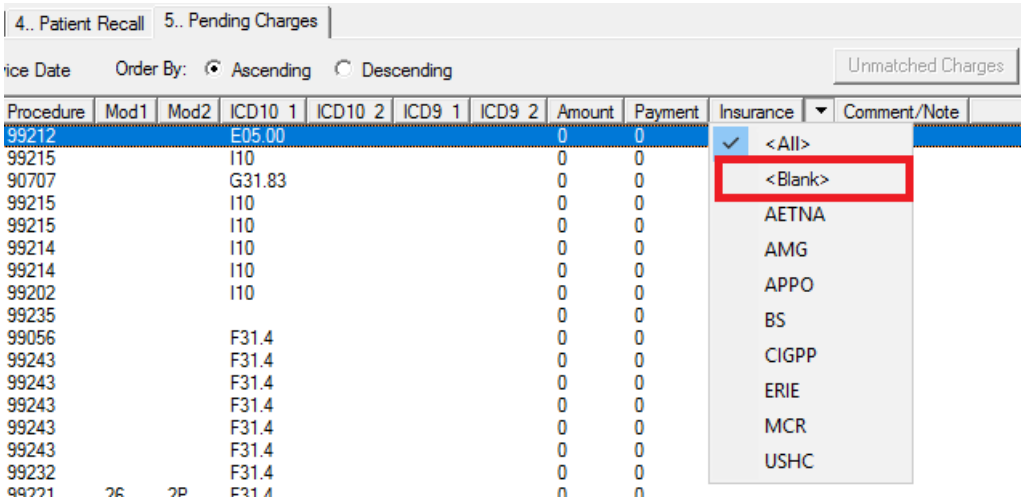

Figure 1 – Charge – Pending Charges – Insurance

  * This was released in the CMMS 6.5.2.463 hot fix release.

Clinical

- **Clinical – Immunization** – The program has been updated to ensure that the latest CVX codes and CVX mappings, MVX codes and MVX mappings, Manufacturers, and NDC codes, per the latest CDC guidelines, are used for immunization procedures. [PBI 28000, 28469]

Remittance

- **Remittance – Post Remittance Payments –** In previous versions, when posting secondary payments from other states, using the Virginia Medicaid (VAMCD) and/or Change Healthcare (NEIC) remittance programs, a "Policy Number Not Matched" error was being generated and the payments would not be posted. This issue has been corrected.
